

PRESS RELEASE

Luminox Sport Timer Automatic 0920 Series

November 2023 – To round up the year, Luminox will launch two extraordinary timepieces for the Sport Timer Automatic series, just in time for the holiday season. Designed for both style and performance, the new Luminox Sport Timer is being released in either a fresh green steel dial or a bronze and dark blue limited edition. These new designs reimagine one of the first ever Luminox watches, further enhancing Luminox’s Automatic lineup.

The new addition to the Sport Timer Automatic 0920 series is available with a striking green bezel ring matching the sunray dial. The bezel is built with stainless steel and ceramic inlay, combining superior strength and durability that is scratch resistant. This timepiece also shows off the iconic automatic Swiss movement by SELLITA with an open exhibition case back and a blacked-out rotor decorated with the Luminox logo, housed in a 42mm stainless steel case.

For the avid Luminox collector, the Bronze Sport Timer Automatic is limited to 688 pieces worldwide and comes in a boxed-set featuring a bronze case, brown leather strap and an additional navy-blue cut-to-fit strap. The number 688 is derived from the tradition of bronze being associated to gifts for an 8th Anniversary. Bronze is a combination of copper which symbolizes luck, and tin which represents durability. The meaning behind the materials and numbers perfectly reflects the spirit of all great adventurers driven by exploring the unknown, relying on durable equipment and a bit of luck.

All Luminox Sport Timer watches feature a date function and are known for their reliable, automatic movement, incredible durability and versatile wearability. Like every Luminox watch, it incorporates the Luminox Light Technology, making sure it is visible in any light conditions for up to 25 years. The seconds hand feature the Super-Luminova, which requires absorption of light source, to maximize visibility and functionality in complete darkness.

The Sport Timer Automatic is a stylish accessory suitable for both office and outdoor adventures, and perfect as a gift during the holiday season.

About Luminox

Luminox, the original self-powered luminous watch brand, is the watch of choice for global outdoor adventure icon Bear Grylls, U.S. Navy SEALs, The Icelandic Association for Search and Rescue (ICE-SAR), Lockheed Martin's F-117 Nighthawk™ stealth and other jet fighter pilots, elite forces worldwide and professional divers. Luminox watches glow up to 25 years in any light condition. Always Visible, tough, powerful and accurate, Swiss-Made Luminox is the ultimate night vision gear for rugged outdoorsmen and other peak performers.

ALWAYS VISIBLE

Navy SEALs, law enforcement, emergency personnel and more wear Luminox watches, and these professionals need to be able to see the time no matter the conditions. That's why Luminox uses tiny tritium gas tubes, which will provide illumination for up to 25 years. Unlike other luminosity systems, which depend on exterior light sources to charge luminous paint or a pushbutton to illuminate the watch, the luminosity is built right into Luminox watches, ensuring that you will always be able to see the time, no matter the conditions.

AVAILABILITY

Luminox watches are available at Crystal Time Pavilion at VivoCity #01-K30, TANGS at Tang Plaza Level 3 and authorised watch retailers.
